

# X-SAPR Operations

Submitted by nitin on Thu, 04/21/2011 - 21:22

- [DOE X-SAPR](#)

Flight Date:

Thursday, April 21, 2011

Status:

Green

XNW (X-SAPR Northwest) , XSW (X-SAPR Southwest) and XSE (X-Southeast) were operational. XNW had an azimuth pointing error during the the operations till 16:30 CST. The error was corrected.

All the three radars are in a convective scan mode.

Data is being sent to the TITAN system at the SGP CF.
